

## South Dakota Department of Agriculture Waste Pesticide Program

The South Dakota Department of Agriculture Waste Pesticide Program has shown steady to increasing participation over the years until 2008 and 2009 when the program was short on funds and concentrated more on recycling. In 2009 we collected 26,190 lbs waste and participated in 5 Household Hazardous Waste Collections in communities around the state. The program is currently seeking a contract for waste disposal and will more aggressively make waste collections once we have a contract in place, as we have limited space for storage.

**South Dakota Unusable Pesticide Collection totals 1993 - 2009  
( 08 Collections Suspended for lack of Funding )**

## Example of products Collected

### Chlordane Insecticide (Banned by EPA)

### DDT (Banned) and other out dated Pesticides

### Household Waste

### Waste Bulked for Disposal
