

Cancelled or Severely Restricted Pesticides in the U.S.

2,4,5-TP	2,4,5-T	2,4,5-TCP
Acephate	Aminocarb	Ammonium Sulfamate
Aldrin	Aspon	arsenic trioxide*
Amobam	Brominated-salicylanilide	Benomyl
benzene hexachloride	Butoxycarboxim	BHC
Bifonex	chloranil	Bromoxynil-heptanoate
Bromoxynil-butyrate	Calcium-cyanamide	tributyltin compounds*
Cadmium-chloride	carbofuron*	Calcium-arsenite
Captafol	Carbon-disulfide	Calcium-cyanide
Carbophenothion	Chloramben	Carbon-tetrachloride
Chlordimeform	Chlorfenac	Chlordane*
Copper-arsenate	Cycloheximide	Chlorobenzilate
Cyhexatin	DBCP	chlorpyrifos methyl
daminozide*	Dialifor	Cyclohexanone
Dalapon	Diazinon* (indoor use)	DDT
Demeton	Dieldrin	Diallate
Dichlone	Dipropetryn	Dinoseb
Diphenamid	EDB	Dioxathion
Dodemorph	EPN	EDC
Endrin	Ethyl parathion	Erbon
Famphur	Fenamiosulf	Fensulfothion
Flouroacetamide	Fluchloralin	Fumarin
Heptachlor*	Isopropalin	Kepone
Lead-arsenate	Malachite-green	Mercuric-chloride
Methazole	Mirex	Monocrotophos
Monuron	Nicotine-sulfate	Nitrofen
Oryzalin	Paraclox	Phenyl mercury compounds
Perthane	Potassium-cyanide	Potassium-permanganate
Phosdrin	Propazine	Propham
Ronnel	Safrole	Schradan
Sinox	Sodium-flouroacetate	Sodium-arsenate*
Sodium-arsenite	Sodium-pentachlorophenate	Strobane
Sulfur-dioxide	Terbutryn	Tetradifon
Thallium-sulfate	Thiophanate-ethyl	Toxaphene
Triphenyltin-hydroxide	Trysben	Zineb

Note: This list is not a complete listing and should only be used as a reference. Listing of a pesticide active ingredient as cancelled gives no information concerning use of existing stocks.

* Severely Restricted - virtually all registered uses have been prohibited, but certain specific registered uses remain authorized.
