

# **2006 ANNUAL REPORT ON COMMERCIAL FEEDS & ANIMAL REMEDIES**

January 1, 2006 to December 31, 2006

## **SECRETARY OF AGRICULTURE – BILL EVEN**

### **FEED & REMEDY PROGRAM**

- Kevin Fridley - Director, Division of Agricultural Services
- Brad Berven - Administrator, Office of Agronomy Services
- Michael Blume - Commercial Feed & Animal Remedy Specialist

### **LABORATORY**

- Nancy Thiex - Oscar E. Olson Biochemistry Labs  
South Dakota State University  
133 Animal Science Complex  
Box 2170  
Brookings, SD 57007-1217  
  
Telephone 605-688-6171

### **QUESTIONS**

Questions regarding this publication may be directed to the Department of Agriculture at 605-773-4432. The Department of Agriculture also maintains an internet site, which contains a copy of this report, as well as other information including the commercial feed and animal remedy regulations, license application and feed tonnage inspection fee report forms, and e-mail addresses for Department personnel. The address for that web-site is:

<http://www.state.sd.us/doa/das>

# 2006 COMMERCIAL FEED & ANIMAL REMEDY ANNUAL REPORT

## TABLE OF CONTENTS

The following are the beginning page numbers for the individual sections:

### Commercial Feed results

- 3. 2006 Summary of total feed tonnage reported
- 7. List of 2006 feed analytes
- 10. Summary of sample results by manufacturer
- 15. Individual sample results

### Animal Remedy results

- 82. List of 2006 remedy analytes
- 84. Summary of sample results by manufacturer
- 86. Individual sample results

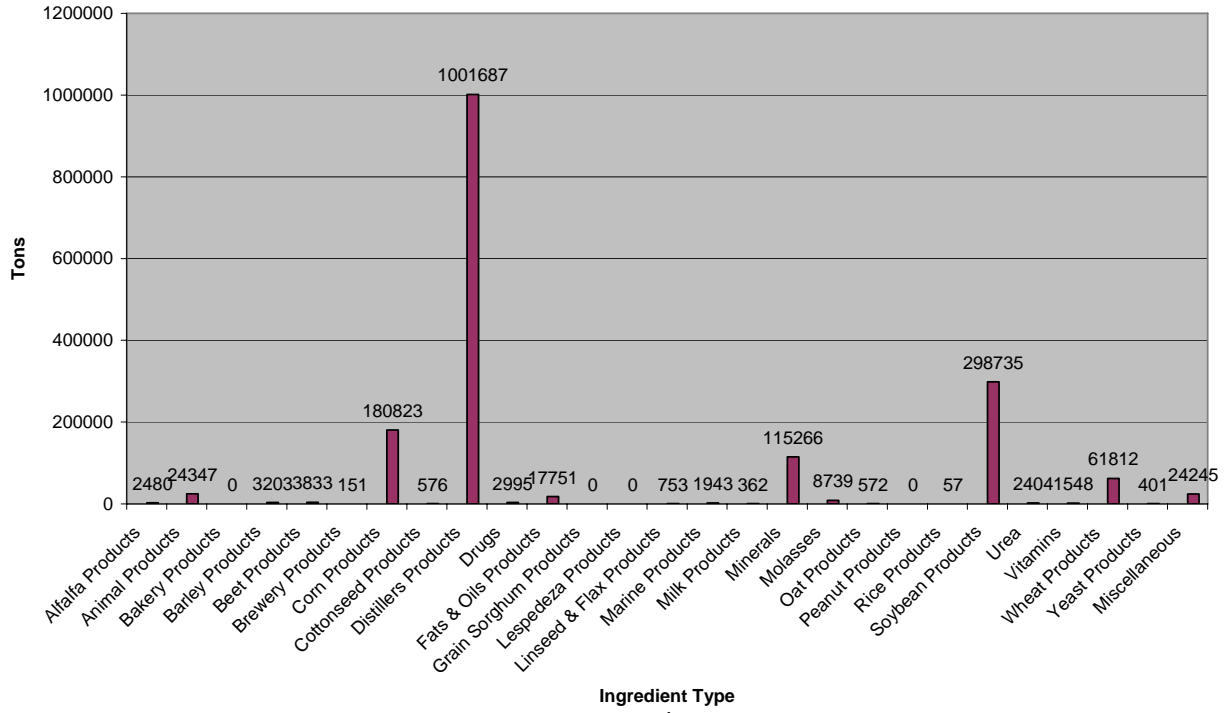

### Animal Feed & Drug Contaminants Monitoring Program

- 95. Adulteration by Noxious Weed Seeds
- 97. Summary of weed seed occurrence in commercial feeds and feed ingredients

**SOUTH DAKOTA DEPARTMENT OF AGRICULTURE  
COMMERCIAL FEED TONNAGE REPORT  
2006 -- 2,388,536 TONS**

<b>FORMULA FEED</b>	<b>TONS COMPLETE</b>	<b>TONS SUPPLEMENT</b>	<b>FEED</b>	<b>TONS</b>

## Regulatory Analyte Totals

Feeds Samples	Units	Received From 1/1/2006 To 12/31/2006
15-Acetyl DON	ug/g (ppm)	2
3-Acetyl DON	ug/g (ppm)	2
Acid Detergent Fiber	%	37
Aflatoxins	ug/g (ppm)	2
Amprolium	%	7
Amprolium	g/ton	1
Arginine - Total	%	2
Ash	%	52
Calcium	%	247
Carbadox	g/ton	2
Carbadox	g/lb	1
Chloride	%	1
Chromium	ug/g (ppm)	1
Copper	%	1
Crude Fiber, Crucible Method	%	197
Chlortetracycline	g/ton	12
Chlortetracycline	g/lb	21
Chlortetracycline	mg/lb	2
Cystine - Total	%	2
DAS	ug/g (ppm)	2
Decoquinatate	g/ton	9
Decoquinatate	%	4
Deoxynivalenol	ug/g (ppm)	2
Equiv Crude Protein	%	91
Fat: Acid Hydrolysis	%	22
Crude Fat (Diethyl Ether Extract)	%	129
Fat: Roese Gottlieb	%	19
Crude Fat (Petroleum Ether)	%	3
Fenbendazole	%	1
Free Fatty Acids in Fat	%	1
Fumonisin B1	ug/g (ppm)	2
Fusarenone-X	ug/g (ppm)	2

## Feeds Samples

### Units

Received From 1/1/2006 To 12/31/2006

Glucose		1
Glycine - Total	%	1
Histidine - Total	%	2
HT-2 Toxin	ug/g (ppm)	2
Hydrolyzate amino acids	%	1
Isoleucine - Total	%	2
Insoluble Impurities	%	1
Iron	%	1
Iso T-2 Toxin	ug/g (ppm)	2
Lactose	%	2
Lasalocid	g/ton	52
Leucine - Total	%	2
Linoleic Acid 18:2	%	5
Lysine - Total	%	62
Lysine MonoHydrochloride	%	1
Magnesium	%	45
Manganese	%	2
Methionine - Total	%	39
S-Methoprene	%	3
Karl Fisher Moisture	%	5
Oven Moisture	%	135
Moisture by Vacuum Oven LOD at	%	37
Monensin	mg/lb	1
Monensin	g/ton	62
Total Fat	%	4
Neomycin	g/ton	3
Neosolaniol	ug/g (ppm)	2
Total Nitrogen	%	3
Nivalenol	ug/g (ppm)	2
Omega-3 Fatty Acids	%	6
Omega-6 Fatty Acids	%	4
Oxytetracycline	g/ton	4
Oxytetracycline	g/lb	3
Phenylalanine-Total	%	2

## Feeds Samples

### Units

Received From 1/1/2006 To 12/31/2006

Phosphorus	%	107
Potassium Chloride	%	1
Potassium	%	56
Crude Protein, Combustion	%	515
Salt (Chloride X 1.65)	%	28
Salt (Sodium X 2.54)	%	175
15-Acet-Scirp	ug/g (ppm)	2
Scirpentriol	ug/g (ppm)	2
Selenium	%	1
Selenium	ug/g (ppm)	126
Sodium	%	27
Sulfamethazine	g/lb	4
Sulfamethazine	%	1
Sulfur	%	1
Sulfur	%	14
Sulfathiazole	g/ton	3
T-2 Toxin	ug/g (ppm)	2
Acetyl T-2	ug/g (ppm)	2
T-2 Tetraol	ug/g (ppm)	2
T-2 Triol	ug/g (ppm)	2
Taurine - Total	%	15
Tetrachlorvinphos	%	1
Threonine - Total	%	5
Tryptophan - Total	%	2
Total Sugars as Invert	%	34
Tylosin	g/ton	13
Tyrosine - Total	%	2
Valine - Total	%	2
Vitamin A	IU/lb	215
Zearalenol	ug/g (ppm)	2
Zearalenone	ug/g (ppm)	2
Zinc	%	3
Zinc	ug/g (ppm)	2

## ANIMAL FEED & DRUG CONTAMINANTS MONITORING PROGRAM

### Adulteration by Noxious Weed Seeds

Noxious weeds are a problem in South Dakota. One method being used to try to control the distribution of noxious weed in the state is to reduce or eliminate them from animal feeds. Several sections of the South Dakota Commercial Feed Law and Regulations address the issue of commercial feeds containing noxious weed seeds.

Section 39-14-53 of the South Dakota Commercial Feed Law States that “a commercial feed shall be deemed to be adulterated if it contains viable weed seeds in amounts exceeding the limits which the Secretary of Agriculture shall establish by rule pursuant to the provisions of Chapter 1-26.”

These rules are further addressed in the Administrative Rules of South Dakota (ARSD), Chapter 12:53:01:10, which states:

All screenings or by-products of grains and seeds containing prohibited or restricted weed seeds, as defined in chapter 12:36:03, when used in commercial feed or sold as such to the ultimate consumer, must be ground fine enough or otherwise treated to destroy the viability of weed seeds. The finished product may contain no viable prohibited weed seeds per pound and not more than 4.5 viable restricted weed seeds per pound.

Regulation 9(b) of the commercial feed regulations (and the Uniform Feed Bill and Regulations) essentially repeats this.

Chapter 12:36:03:02 of the South Dakota Seed Law, SDCL 38-12A, defines those noxious weed seeds that are prohibited and restricted. They are listed as follows:

#### 12:36:03:01 Prohibited noxious weed seeds.

- |                      |                          |
|----------------------|--------------------------|
| (1) Field bindweed   | (5) Perennial sowthistle |
| (2) Leafy spurge     | (6) Canada thistle       |
| (3) Hoary cress      | (7) Quackgrass           |
| (4) Russian knapweed | (8) Horse nettle         |

#### 12:36:03:02 Restricted noxious weed seeds.

- |                    |                        |
|--------------------|------------------------|
| (1) Wild oats      | (7) Annual bluegrass   |
| (2) Dodder         | (8) Spotted knapweed   |
| (3) Wild mustard   | (9) Giant foxtail      |
| (4) Hedge bindweed | (10) Musk thistle      |
| (5) Wild carrot    | (11) Plumeless thistle |

Based on our test results, we find feed samples containing noxious weed seeds. We are not analyzing a representative cross-section of the commercial feed supply, however, we are only analyzing those products which appear to contain noxious weed seeds. Additionally, the weed seeds need to be **viable** in order for the product to be violative. From 1989 through 2004 the South Dakota Department of Agriculture analyzed 590 feed samples for noxious weed seeds. 100 of those samples (17%) were reported NOT PASSED, because they contained viable noxious weed seeds in excess of the standards specified above.

AS-FS-102

## SAMPLING PROGRAM

While many feeds and feed ingredients have little or no contamination by weed seeds, other feeds and ingredients have a higher probability of containing noxious weed seeds. By concentrating our sampling and analysis on those feeds and feed ingredients that have a higher chance of containing noxious weed seeds, we may get better compliance with the regulations and decrease the amount of contaminated feed distributed. Grain screenings, custom formula feeds, texturized feeds, and wild bird food are products of primary concern at this time.

Rather than collect extra samples for weed seed analysis, we will analyze a number of our routine samples for weed seeds, in addition to the routine analytes. We will continue monitoring commercial feeds for contamination by viable noxious weed seeds.

Specific instructions to field staff for our weed seed monitoring program are as follows:

1. The lab will only analyze for weed seeds when requested by the Inspector or the Office of Agronomy Services.
2. Visually inspect each sample collected
3. Determine if the product sampled fits into one of the priority categories. These categories are:
  - Grain screenings
  - Custom formula feeds, especially those containing whole grains or screenings,
  - Texturized and other feeds containing whole grains, and
  - Wild bird food.
4. Other products may be submitted for analysis if there appears to be a high probability of weed seed contamination.
5. When collecting a sample for weed seed analysis and label analysis, please collect an additional pound of feed for the weed seed analysis.
6. Make a note in the "Remarks" section of the Report of Sample form requesting analysis for weed seed.

If the sample is reported NOT PASSED after analysis, it will be handled like any other violative sample. Any product remaining of the lot sampled will be placed under Stop Sale Order as an adulterated product. The product can be released from Stop Sale only for remanufacturing to render the weed seeds non-viable or disposal.

---

Issue Date: October 21, 1991 Review Date: October 21, 1999

## SUMMARY OF WEED SEED OCCURRENCE IN COMMERCIAL FEEDS

Commercial Feeds Sampled January 1, 2006- December 31, 2006

Total samples analyzed for weed seed contamination: 28

Number of samples analyzed reported as PASSED: 25

Number of samples analyzed reported NOT PASSED: 3

Percent of samples reported NOT PASSED: 10.7%

Sampling was confined to products that looked like they may contain noxious weed seeds. Some of the samples that passed did contain some weed seeds. However, the factor that determines if a sample passes or not is seed viability. The weed seeds need to be viable to be violative. Samples containing noxious weed seeds but reported as PASSED contained less than 4.5 viable *restricted* weed seeds per pound or no viable *prohibited* weed seeds. In some cases, there were no viable weed seeds in the sample.

Type of feed analyzed for weed seeds	Number analyzed	Number NOT PASSED	Percent NOT PASSED
Texturized feed, scratch feeds, poultry feed	2	1	50%
Customer formula feeds	6	0	0%
Grain, grain screenings	5	0	0%
Wild bird feeds	15	2	13.3%
