

## South Dakota CRP Mid-Term Management Hay Distribution Program

USDA-FSA is allowing producers with CRP mid-term management hay to donate the baled residue rather than destroy it.

Baled residue from participating producers will be available in very limited quantities. The South Dakota Department of Agriculture (SDDA) will coordinate the donation effort between the CRP participant and the livestock producer. The recipient will be responsible for expenses and arrangements associated with transporting the donated hay. Extra precautions may need to be exercised as movability of the hay is limited.
