

# Landowner Workshop & Field Day - September 17, 2016

*Ecology, Management, and Restoration Efforts of Quaking Aspen in the Black Hills*

**at Miller Tree Farm - Nemo, SD**

Many areas in the Black Hills and across the west have seen Quaking aspen stands slowly declining and disappearing over time. Aspen provide benefits including species diversity, wildlife habitat, and aesthetic values. This event will provide an opportunity to learn about this unique species and successful management strategies to restore aspen stands across the landscape.
