* Conservation Commission cost-share is not to be used to replace other available cost-share

* Landowner labor can be cost/shared at a rate of \$15.00 per hour for installation of approved practices or can be counted as in-kind match towards the local match requirements

¹ All practices must meet state & local ordinances (such as distance from roadway to prevent excessive snow deposition, power-line & other right-of-way standards, etc).

² Payment based on actual bills/receipts submitted by the producer. Cost-share paid on legitimate costs up to the specified maximum.

³ All cost-shared practices require a Resource Management Plan (practice plan).

⁴ Clean outs on dugouts not cost-shared within the expected lifespan of the practice.

⁵ Payment will be made on either fabric or chemical/mechanical weed & pest control for tree plantings but not both on an individual site

⁶ Monoslope/hoop barn must be replacing an existing animal feeding operation and the existing lots must be abandoned and reclaimed.
