

**SOUTH DAKOTA DEPARTMENT OF AGRICULTURE
DRUG RESIDUE FOLLOW-UP INSPECTION REPORT**

Name: _____ Location: _____ County: _____

Date of Violation: _____ Date of Farm Visit: _____ State Permit #: _____

Identify the Animal Drug(s) Reportedly Used: _____

Suspected cause for the Positive Drug Residue? _____

What on farm changes will be implemented to prevent future occurrences? _____

- _____ Drug administration equipment properly handled and stored?
- _____ Drugs properly labeled (name and address) and stored?
- _____ Drugs properly labeled (directions for use, cautionary statements, active ingredient)?
- _____ Drugs used and stored to preclude contamination of milk?

DRUG RESIDUE AVOIDANCE CONTROL MEASURES

Animal identification and record keeping are critical for avoiding milk residues. Producers should establish systems to ensure that animal drugs are used properly and be able to provide evidence that adequate control over the administration of drugs to prevent residues in milk and/or meat has been implemented. These control systems should accomplish the following objectives:

- a. Identification and tracking the location of treated animals.
- b. Maintenance of a system of medication/treatment records that, at a minimum, records the identity of the animal(s) being treated, the date(s) of treatment, the drug(s) or other chemicals administered, who administered the treatment, the dosage, and the prescribed withdrawal time for milk and slaughter.
- c. Quarantine/segregation of treated animals or other means to preclude the sale of milk or offering of treated animals for sale for slaughter prior to the end of the prescribed withdrawal time.
- d. Education of all farm personnel involved in treating animals on proper drug use and methods to avoid marketing adulterated milk or meat for human food.

Plant Field Representative Signature: _____

Dairy Producer Signature: _____

This form must be completed, signed and received by the Department within 15 days after the issuance of the temporary permit, to avoid permit suspension. FAX (605) 773-3481
